CAPABILITIES STATEMENT

ABOUT MOAM CONSULTING

MoAm Consulting Services LLC is an MBE located in Olney, Maryland. We specialize in Information Technology (IT) solutions and staff augmentation. We leverage our extensive network to source highly qualified resources that are readily available to deliver solutions to our customers anytime, anywhere. We primarily work with security-cleared resources for highly sensitive and classified work.

CORE COMPETENCIES

MoAm Consulting Services LLC helps customers meet their technology objectives by providing technical resources to meet their short and long term IT requirements related to the following:

Software Engineering

- Application Implementation
- Application Maintenance
- Computer Programming
- Cloud Computing
- Cyber Security
- Data Architecting
- Data Warehousing
- Database Development and Administration
- Desktop and Helpdesk Services
- DevOps
- Hardware and Software Training
- IT Program Management

DIFFERENTIATORS

- Our extensive network of professionals allows us to tailor our services to the requirement of the agency.
- Our direct relationship with a large pool of information technology professionals affords us a quick turnaround time to address most client's needs.
- We work on referrals only so the character and work ethic of our resources are vetted by their peers before they come onboard. We pass that quality on to the client.
- Our solutions are found in the marketplace however, our approach to solutioning our client's requirements relies only on solutions and industry best practices.

PAST PERFORMANCE

We have strong experience as a subcontractor supporting commercial and federal agencies. A representative list of past and current customers can be provided upon request.
